Re: HSRA Release Notification
Lockheed Martin Corporation-Dixie Avenue.
Dixie Avenue, Smyrna (Cobb County)

Dear Mr. Owens:

Pursuant to the Rules for Hazardous Site Response, specifically Rule 391-3-19-.05(1) "Listing on the Hazardous Site Inventory," the Environmental Protection Division (EPD) has evaluated the above referenced property to determine whether a release exceeding a reportable quantity has occurred.

Based upon the information available to EPD at the time this evaluation was done, including your notification dated August 29, 2007 and Report of Subsurface Remediation dated May 18, 2009. EPD has no reason to believe that a release exceeding a reportable quantity has occurred at this property. The property was evaluated as having unlimited access, non-residential use with the nearest drinking water well located greater than one mile from the property. Enclosed is a copy of our inspection report, recommendation memorandum, and Reportable Quantities Screening Method (RQSM) score sheet that summarize the conditions used to evaluate this property. Based on this information, this property will not be listed on the Hazardous Site Inventory.

As provided for in Section 391-3-9-.04(4) of the Rules, the owner of the property must notify EPD if they become aware of any information not provided in the notification that should have been provided, or if they become aware of any information or events that suggest changes may have occurred in any of the conditions referenced in the attached documents. Please provide a copy of this letter and the attached documents to any person to which title or an interest in this property is transferred.

Please direct questions regarding this matter to Montague McPherson of the Hazardous Sites Response Program at (404) 657-8600.

Sincerely,

Regina Campbell

Dear Mr. Rodriguez:

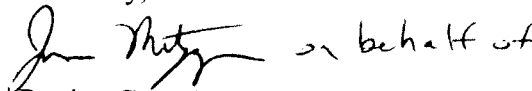

Pursuant to the Rules for Hazardous Site Response, specifically Rule 391-3-19-.05(1) "Listing on the Hazardous Site Inventory," the Environmental Protection Division (EPD) has evaluated the above referenced property to determine whether a release exceeding a reportable quantity has occurred.

Based upon the information available to EPD at the time this evaluation was done, including your notification dated May 19, 2009, EPD has no reason to believe that a release exceeding a reportable quantity has occurred at this property. The property was evaluated as being accessible, residential use with the nearest drinking water well located greater than one mile from the property. Enclosed is a copy of our inspection report and recommendation memorandum that summarize the conditions used to evaluate this property. Based on this information, this property will not be listed on the Hazardous Site Inventory.

As provided for in Section 391-3-9-.04(4) of the Rules, the owner of the property must notify EPD if they become aware of any information not provided in the notification that should have been provided, or if they become aware of any information or events that suggest changes may have occurred in any of the conditions referenced in the attached documents. Please provide a copy of this letter and the attached documents to any person to which title or an interest in this property is transferred.

Please direct questions regarding this matter to Montague M^cPherson of the Hazardous Sites Response Program at (404) 657-8600.

Dear Mr. Habel:

Pursuant to the Rules for Hazardous Site Response, specifically Rule 391-3-19-.05(1) "Listing on the Hazardous Site Inventory", the Environmental Protection Division (EPD) has evaluated the above referenced property to determine whether a release exceeding a reportable quantity has occurred.

Based upon the information available to EPD at the time this evaluation was done, including your notification dated August 3, 2009; EPD has no reason to believe that a release exceeding a reportable quantity has occurred at this property. The property was evaluated as having unlimited access and non-residential use. Enclosed is a copy of our inspection report, recommendation memorandum, and Reportable Quantities Screening Method (RQSM) score sheet that summarize the conditions used to evaluate this property. Based on this information, this property will not be listed on the Hazardous Site Inventory. However, please note that this property has been impacted by a release at HSI No. 10135, and is therefore a part of that 'Site' as defined in Section 391-3-9-.02(2)(v) of the Rules

As provided for in Section 391-3-9-.04(4) of the Rules, the owner of the property must notify EPD if they become aware of any information not provided in the notification that should have been provided, or if they become aware of any information or events that suggest changes may have occurred in any of the conditions referenced in the attached documents. Please provide a copy of this letter and the attached documents to any person to which title or an interest in this property is transferred.

Please direct questions regarding this matter to Jason Metzger of the Hazardous Sites Response Program at (404) 657-8600.

Sincerely,

Alexandra Y. Cleary
