Re: Removal from Hazardous Site Inventory
Georgia Power Lyerly Substation, HSI# 10879
McLeod Street at Tennessee Avenue
Lyerly, Chattooga County, Georgia
Parcel ID. 00L01-00000-019-000

Dear Mr. Dennis:

The Georgia Environmental Protection Division (EPD) has reviewed the Compliance Status Report 2008 dated October 27, 2008, and related documents pertaining to the above referenced site. Based on these documents, including the June 5, 2007 Corrective Action Plan, EPD has determined the site meets Type 1 (residential) risk reduction standards of Section 391-3-19-.07 of the Rules for Hazardous Site Response (Rules).

In accordance with Section 391-3-19-.06(6)(b)(1) of the Rules, EPD is designating the site as not needing further action. As of the date of this letter, this site has been removed from the Hazardous Site Inventory in accordance with Section 391-3-19-.05(4) of the Rules. As required by Section 391-3-19-.06(5)(f) of the Rules, EPD will publish a notice announcing this determination in the *Atlanta Journal Constitution* and the *Fulton County Daily Report*.

If you have any questions regarding the removal of this site from the HSI, please contact Ms. Alex Cleary of EPD's Response and Remediation Program at (404) 657-8600.

Sincerely,

Mark Smith, Chief
Land Protection Branch
